

Technical Data Sheet:

#PG-101

2.0mil Dry Erase Gloss Polypropylene Laminate (Indoor Only)

PG-101 is a 2.0 mil clear polypropylene film coated with a permanent acrylic pressure sensitive adhesive on a smooth paper liner. This laminate can turn any printed graphics into a writeable dry erase surface and is designed for use with dry erase markers. PG-101 is best suited for short-term or promotional indoor graphics, and is not recommended for long-term durability. Note that this product is intended to be paired with a base vinyl. The base vinyl will adhere to the substrate surface. It is not recommended to apply the laminate directly to a plastic substrate surface as this will produce a poor bond. To clean, use a microfiber cloth and either soap and water or an isopropyl 50/50 mixture. Harsh chemicals may damage the surface of the material.

Product Number	#101
Film	
Film Type	Clear Dry Erase Polypropylene
Finish	Gloss
Film Thickness (mils)	2.0
Film Weight (gsm)	69
Gloss (60°)	≥90
Adhesive	
Adhesive Type	Emulsion Acrylic
Adhesive Thickness (mils)	1.0
Adhesive Color	Clear
Liner	
Liner Weight (#)	53
Liner Type	White PE-Coated 1 side Kraft
Liner Thickness (mils)	3.5

Environment	
Application Temperature	≥ 40°F
Service Temperature	-40°F to 200°F
Indoor Durability	Up to 6 months

*Note: In the following chart, checkmarks indicate compatibility, while cross marks indicate incompatibility.

Applications	Product Compatibility
✓ POP/Retail	✗ Wet Apply
✓ Wall	✓ Dry Apply
✗ Wrap	✓ Laminating
✓ Window	✗ Mounting
✗ Floor	✓ Die Cuttable
✓ General Signage	✗ Hot Stamp
✓ Indoor (Short Term)	✗ Thermal Dye
✗ Outdoor	✗ Flatbed Cuttable
✗ Translucent	✓ OEM Painted Metal
	✗ Painted Aluminum
	✗ Stainless Steel
	✓ Printed Graphics
	✗ Acrylic
