#PG-352

6.0mil Wall Film Matte White
 Calendered Vinyl with Gray
 Removable Repositionable Adhesive

PG-352 is a 6.0 mil matte white polyester wall fabric with a subtle woven texture. PG-352 has special coatings to enhance opacity and provide superior hiding and cover for underlying paint and graphics in wall applications. The adhesive is designed for long term use on smooth painted drywall, is repositionable to ease installation, and remains cleanly removable for up to 1 year. The 90# tight release liner provides excellent stability for solvent, eco-solvent, latex, UV-curable, screen, and offset UV-curable wide format digital printing. Common applications for PG-352 include: wall murals, decals, and graphics for most types of smooth painted interior walls.
