

# Technical Data Sheet:

## #PG-606

**8oz Matte White Mesh Banner  
70/30 Hole Pattern with Film  
Liner**

PG-606 is an 8 oz. matte white mesh banner with a 70/30 hole pattern and a PVC film liner. The backer creates an air-tight print surface to prevent ink spray through, while also helping to feed the material through the printer. The backer is easily removed after printing. PG-606 allows for 37% air flow. This product can be used in solvent, eco-solvent, UV-curable, and screen wide format digital printing. Common applications for PG-606 include: banners, building wraps, protective barriers, fence wraps, and other general POP signage applications.

Product Number	#606
<b>Film</b>	
Film Type	White Polyester
Finish	Matte
Denier	1000 x 1000
Coating	PVC
Film Weight (oz/yd <sup>2</sup> )	8.0
<b>Environment</b>	
Outdoor Durability	Up to 3-5 years
Low Temperature (No Crack At)	-22°F
Air Permeability	2650mm/sec
Flame Resistance	NFPA701, Title 19, CSFM, ASTM E84
Fungus Resistance	Treated
<b>Applications</b>	
✓ POP	✓ Banners
✓ Outdoor & Indoor	✓ Building Wraps, Protective Barriers, and Fence Wraps
