

Technical Data Sheet:

#PG-933

6.0mil Matte White Polypropylene BOPP Synthetic Paper with Permanent Adhesive

PG-933 is a 6.0 mil matte white biaxially oriented polypropylene (BOPP) synthetic paper with clear permanent adhesive. PG-933 is high performing and able to accept heavy ink loads while maintaining exceptional resolution and tonal range. It is best used on any flat mounted surface as it is easier to apply than vinyl due to its rigidity. Some key benefits of PG-933 include its water resistance, smooth non-glare finish, tear resistance, and economical pricing. This product can be used in aqueous (pigment and dye-based) wide format digital printing. Common applications for PG-933 include: flat mounted signage, decals, indoor signage, and short term outdoor signage.

Product Number	#933
Film	
Film Type	White Biaxially Oriented Polypropylene (BOPP)
Finish	Matte
Film Thickness (mils)	6.0
Film Weight (gsm)	103
Gloss (60°)	3
Opacity (%)	96
Whiteness	95 (CIE Ganz)
Brightness	108 (ISO Blue Whiteness)
Adhesive	
Adhesive Type	Clear Permanent Acrylic
Liner	
Liner Weight (gsm)	45
Liner Type	Polyethylene Terephthalate (Polyester/PET)
Liner Thickness (mils)	1.0

Environment	
Indoor Durability	Up to 1 year
Outdoor Durability	Up to 6 months
Applications	
✓ POP/Retail	✓ Flat Mounted Signage
✓ Outdoor (Short Term) & Indoor (Long Term)	✓ Decals & Other General Signage
