

Technical Data Sheet:

#PG-338

7.0mil Matte White Polyester Blockout Anti-Curl Banner Display Film

PG-338 is a 7.0 mil matte white polyethylene terephthalate (PET) anti-curl display film. PG-338 offers high quality image reproduction with outstanding color expression. The 100% polyester base makes excellent dimensional stability avoiding buckling, warping, or curling, while the matte finish produces anti-glare qualities reducing reflections. This product has long lasting durability for both indoor and outdoor use. PG-338 can be used in aqueous (pigment and dye), latex, and UV-curable wide format digital printing. Common applications for PG-338 include: hanging isle banners and posters, rollup stands, instruction plates, trade show panels, and point of purchase (POP)/retail displays. Lamination is optional for this product. Should you choose to laminate PG-338, we recommend PG-004, PG-104, and PG-204.

Product Number	#338
Film	
Film Type	White Polyethylene Terephthalate (PET)
Finish	Matte
Coating	Porous
Film Thickness (mils)	7.0
Film Weight (gsm)	215
Opacity (%)	Excellent blockout
Environment	
Printing Temperature	59°F - 86°F / Humidity: 30% to 60%
Outdoor Durability	Up to 6 months without laminate / 2 years with laminate
Applications	
✓ POP/Retail	✓ Posters/Banners
✓ Outdoor & Indoor	✓ Trade Show Panels
