

Technical Data Sheet:

#PG-517

15.0mil Semi-Matte White Canvas (296gsm)

PG-517 is a semi-matte white 15.0mil canvas fabric that weighs 296gsm and produces high quality output and color reproduction. PG-517 contains 35% cotton and 65% polyester on a 1x1 weave. The corona has been treated to prevent head strikes on cotton residues. This product can be used in eco-solvent, solvent, latex, and UV-curable wide format digital printing. Some common applications include: fine art, wall decor, retail displays and gallery wraps.

Product Number	#517
Film	
Material	35% Cotton, 65% Polyester, & 1x1 Weave
Finish	Semi-matte
Coating	Resin
Film Weight (gsm)	296
Caliper (mil)	15.0
