

Technical Data Sheet:

#PG-741

8.0mil Satin White Photographic Paper (220gsm)

PG-741 is an 8.0 mil white satin photographic paper and weighs 220gsm. PG-741 has a true RC/microporous coating for instant-dry results. The coating allows users to print with heavy ink loads while maintaining sharp resolution. This is ideal for just about any photo paper application. This product can be used in aqueous (pigment and dye), latex, and UV-curable wide format digital printing. Some key benefits to choosing PG-741 include its economical pricing, professional low glare finish, and fast dry time. Common applications for PG-741 include: posters, photo and graphic displays, and photo frame applications. Lamination is optional for this product. Should laminate this photo paper, we recommend PG-004, PG-104, and PG-204.

Product Number	#741
Film	
Film Type	White Paper
Finish	Satin
Coating	Microporous
Film Thickness (mils)	8.0
Film Weight (gsm)	220
Gloss (60°)	20
Opacity (%)	92
Brightness	93 (ISO Blue Whiteness R457)
Whiteness	150 (CIE Ganz)
Environment	
Indoor Durability	Up to 1 year
Outdoor Durability	Up to 6 months
Applications	
✓ Posters	✓ Photo and Graphic Displays
✓ Outdoor & Indoor	✓ Photo Frame Applications
