

# Technical Data Sheet:

## #PG-746

### 4.0mil Matte White Bond Paper (90gsm)

PG-746 is a 4.0 mil matte white bond white paper and weighs 90gsm. PG-746 has the advantages of being 2 side printable, having excellent line acuity, being acid free, and composed of smooth matte imposition paper. This product can be used in aqueous (pigment and dye-based) wide format digital printing. Common applications for PG-746 include: imposition proofing, value photographic advertising posters, CAD drawings, and more. Please note that PG-746's instant dry, matte finish provides "plug and play" printing when selecting standard "coated paper" or "heavyweight coated paper" mode on most printers. Lamination is optional for PG-746. Should you choose to laminate this paper, we recommend PG-004, PG-104, and PG-204.
