### 8.0mil Matte White Photographic Poster Paper (230gsm)

PG-753 is an 8.0 mil matte white photographic poster paper and weighs 230gsm. PG-753 is specialized, multi-layered, and has a high quality coating that works especially well for eco-solvent inks. Its long lasting durability makes it a good option for both indoor and outdoor applications. PG-753 provides an economically effective solution for high quality photo prints. This product can be used in solvent, eco-solvent, latex, and UV-curable wide format digital printing. Common applications for PG-753 include: photo realistic prints, fine art reproduction, kiosks, POP/retail, and displays such as posters. In summary, some key features of this film include: its brilliant image reproductions, specialized eco-solvent coating, long term durability, and unique textured base. Lamination is optional for PG-753. Should you choose to laminate this paper, we recommend PG-004, PG-104, and PG-204.
